PROFESSIONAL SUMMARY

Frontend Web Developer and full-stack developer with 3 years of experience delivering end-to-end web applications and production-grade frontend development for SaaS platforms, browser-native developer tools, and client projects. Expert in React.js, TypeScript, Tailwind CSS, and SSR/SSG with a scalability focus and user experience focus — consistently shipping 90+ Lighthouse scores through performance optimization, lazy loading, and modular component architecture. Strong problem solving skills, self-motivation, and communication across all project stages. Shipped 12+ production projects including a full-stack SaaS, AI deepfake detection tool, and open-source developer utilities. Weekly technical blogger with 120+ articles on React, Next.js, HTTP standards, and VS Code.

PROFESSIONAL EXPERIENCE

Frontend Web Developer Jan 2021 – Present · Freelance / Self-Employed · Lahore, Pakistan

- Architected high-performance, production-grade Next.js (App Router) web applications using React.js, TypeScript, and Tailwind CSS — ensuring cross-device compatibility, optimal user experience, and 90+ Lighthouse scores through performance optimization and production deployment best practices.
- Built and deployed 12+ production projects across frontend development and full-stack development: BitLens (AI deepfake detector), Movie Stack, Next.js PWA Starter, and a NestJS authentication system with complete authentication systems implementation.
- Built browser-native developer tools without frameworks — Image Metadata Scraper, JSON-to-TypeScript Converter, AI Chatbot — live at hamidrazadev.com, demonstrating self-motivation and strong problem solving in frontend development.
- Active technical blogging on dev.to covering React.js, Next.js, HTTP standards (RFC 9110), and VS Code — 120+ articles published, demonstrating communication skills and sustained thought leadership in the developer community.

Graphic Designer Jan 2020 – Dec 2022 · Freelance / Self-Employed · Lahore, Pakistan

- Designed UI components and digital brand identities (logo, typography, color systems) using Adobe Photoshop, Illustrator, and Premiere Pro.
